\$149⁹⁹

System Requirements

The iGolf Neo is ready to use out of the box without the requirement of any additional software or hardware if you want to map your own golf course. However a computer and internet access are required if you would like to download pre-mapped golf courses from iGolf.com. In order to download pre-mapped golf courses you will need a Windows compatible 98, 2000, XP, Vista computer with a USB port. You will also need a subscription to iGolf.com.

iGolf.com

iGolf.com is an online community for uploading and downloading GPS course files and scorecards. Visit www.iGolf.com to learn more about the iGolf Neo.
